

OptimizeRx Appoints Health IT Industry Veteran, Miriam Paramore, as President; Paramore to Drive Scale as OptimizeRx Offers Medication Savings at Point-of-Care

August 1, 2017

ROCHESTER, Mich., July 31, 2017 (GLOBE NEWSWIRE) -- OptimizeRx Corp. (OTCQB:OPRX), a digital health platform and leader in the electronic distribution of co-pay discount coupons and clinical information through electronic healthcare records (EHR) and e-prescription (eRx), has appointed prominent health IT industry veteran, investor and strategist, Miriam Paramore, as president.

Paramore will lead the effort to scale the company as its EHR network continues to expand. Reaching more than 500,000 healthcare providers nationwide, the OptimizeRx network of leading EHRs delivers patient medication savings and clinical information to ambulatory and acute care providers. The platform promotes patient savings and support from the world's largest pharmaceutical companies, including Pfizer, Merck, Lilly, Novartis, AstraZeneca and others.

"Given our expanding customer base of top pharmaceutical companies, as well as major channel partners like DrFirst, Allscripts and Practice Fusion, Miriam's experience with scaling health technology companies brings timely and highly complementary strengths to our OptimizeRx team," said company CEO, William Febbo.

"Miriam will focus on enhancing our reach to healthcare providers, further developing the technology solutions we deliver, and assuring best-in-class operations for our clients and partners. Her deep technological understanding of the healthcare landscape, especially EHRs, will help us drive broader and more direct access to the point-of-care."

Paramore brings more than 30 years of experience in healthcare and health IT, including recent strategy work with the private equity community, personal investments and executive roles in start-up and early-stage digital health companies.

During her tenure as EVP at Emdeon (now Change Healthcare), she was responsible for corporate strategy and product development, as the company grew to over \$1.2 billion in revenue and completed the largest IPO in health IT history.

Paramore has served on several boards, including the Medicaid HMO CareSource and the HIMSS national board of directors, and she conceived and architected the U.S. Healthcare Efficiency Index™ that led to the passage of electronic provider payment provisions in the Affordable Care Act.

"I am as passionate as ever about the power of information to improve health," said Paramore. "OptimizeRx already reaches over half of all healthcare providers who electronically prescribe, creating opportunities for more than 1 million patients monthly to better afford their medications. However, there still remains a largely untapped opportunity to reach more providers, help more patients, and improve our healthcare system by 'connecting the dots' via the OptimizeRx network. I'm thrilled to join the team, as we combine passion and purpose to drive company growth."
