

Technology Solutions that Inform and Empower the Healthcare Community

Corporate Presentation

September 2026

Important Cautions Regarding Forward Looking Statements

- This presentation has been prepared by OptimizeRx Corporation (“we,” “us,” “our,” “OptimizeRx” or the “Company”) and is made for informational purposes only and does not constitute an offer to sell or a solicitation of an offer to buy securities, nor shall there be any sale of any securities in any state or jurisdiction in which such offer, solicitation or sale would be unlawful prior to registration or qualification under the securities laws of any such state or jurisdiction. The information set forth herein does not purport to be complete or to contain all of the information you may desire. Statements contained herein are made as of the date of this presentation unless stated otherwise, and neither this presentation, nor any sale of securities, shall under any circumstances create an implication that the information contained herein is correct as of any time after such date or that information will be updated or revised to reflect information that subsequently becomes available or changes occurring after the date hereof. This presentation contains forward-looking statements within the definition of Section 27A of the Securities Act of 1933, as amended, and such Section 21E of the Securities Act of 1934, amended. These forward-looking statements should not be used to make an investment decision.
- The words ‘believe,’ ‘expect,’ ‘may,’ ‘strategy,’ ‘future,’ ‘likely,’ ‘goal,’ ‘plan,’ ‘estimate,’ ‘possible’ and ‘seeking’ and similar expressions identify forward-looking statements, which speak only as to the date the statement was made. All statements other than statements of historical facts included in this presentation regarding our strategies, prospects, financial condition, operations, costs, plans and objectives are forward-looking statements. Examples of forward-looking statements include, among others, statements we make regarding our expectations related to the size of the market in which we operate, the value of our current and future annual contracts, our growth strategies, our competitive advantage, the scalability of our platform, the plans and objectives of management for future operations, and our financial metrics and performance. Forward-looking statements are neither historical facts nor assurances of future performance.

Instead, they are based only on our current beliefs, expectations and assumptions regarding the future of our business, future plans and strategies, projections, anticipated events and trends, the economy and other future conditions. Because forward-looking statements relate to the future, they are subject to inherent uncertainties, risks and changes in circumstances that are difficult to predict and many of which are outside of our control. Our actual results and financial condition may differ materially from those indicated in the forward-looking statements. Therefore, you should not rely on any of these forward-looking statements. Important factors that could cause our actual results and financial condition to differ materially from those indicated in the forward-looking statements include, among others, any synergies and other anticipated benefits of an acquisition or merger may not be realized or may take longer than anticipated to be realized and integration of the businesses may be more expensive or more difficult than expected, including as a result of unexpected factors or events, competition within the industries in which we operate, the timing, cost and success or failure of new product and service introductions and developments, our ability to attract and retain qualified personnel, maintaining our intellectual property rights and litigation involving intellectual property rights, legislative, regulatory and economic developments, and the other risks and uncertainties described in our most recently filed Annual Report on Form 10-K and any subsequently filed Quarterly Report(s) on Forms 10-Q and 8-K. Any forward-looking statement made by us in this presentation is based only on information currently available to us and speaks only as of the date on which it is made. We undertake no obligation to publicly update any forward-looking statement, whether written or oral, that may be made from time to time, whether as a result of new information, future developments or otherwise.

- This presentation may include certain non-GAAP financial measures as defined by SEC rules. We have provided a reconciliation of those measures to the most directly comparable GAAP measures, which is available in the Appendix.

At-a-Glance

Leading technology provider for helping patients start and stay on therapy

Corporate Profile

OptimizeRx enables engagement between life sciences organizations, physicians and patients

OptimizeRx connects pharma with physicians and patients to help patients start and stay on therapy

Our technology platform coupled with the nation's largest patient point-of-care network connects the majority of U.S. physicians and patients

The Company has ~130 employees across the United States and Croatia with average revenue per FTE at \$750K

Tackling Some Of Pharma's Toughest Commercial Challenges

BRAND VISIBILITY

- › Crowded market
- › Limited Face to Face time

SHIFT TO SPECIALTY MEDICATIONS

- › 13% see strong HCP-DTC marketing alignment, and only 16% think patients are well informed⁽²⁾

DAILY EHR USE CAN BE ALL-CONSUMING

- › HCPs use EHRs an average of 5.9 hours per day⁽³⁾

AFFORDABILITY

- › Specialty medication spending accounts for over half of total drug spend⁽⁴⁾

INTEROPERABILITY AND SCALABILITY

- › Doctors don't have all the information readily available

SCRIPT ABANDONMENT

- › ~50% of patients never fill their scripts at the pharmacy⁽¹⁾

DAAP Helps Deliver on Our Mission

Our Dynamic Audience Activation Platform (DAAP) delivers predictive and privacy-safe marketing solutions, designed to connect life sciences, HCPs, and patients across the most robust network of personal and clinical platforms.

Industry Programmatic Growth Opens Significant Whitespace

Positions OptimizeRx to capture incremental share of the multi-billion \$ pharma digital ad market through new demand channels

- Unlocks access to the ~90% of U.S. digital display spend transacted programmatically—an untapped channel for OptimizeRx
- Represents significant white space expansion beyond managed EHR programs into scalable programmatic demand
- First to enable programmatic buying of authenticated EHR inventory at scale through direct DSP integration
- Bridges point-of-care precision with programmatic efficiency, eliminating historical tradeoffs for media buyers
- Positions OptimizeRx to capture incremental share of the \$19B+ pharma digital ad market through new demand channels

Driving Brand Demand Through AI-Driven Platform

CLIENT GOAL

A brand sought to increase awareness among physicians treating newly diagnosed and relapsing rare disease patients.

CLIENT CHALLENGES

- Creating awareness among physicians likely to see patient population earlier in the patient journey-immediately after diagnosis.
- Reaching physicians when already diagnosed patients were showing signs and symptoms of relapse and in need of brand to improve quality of life.

RESULTS

Within a five-month initial program, OptimizeRx generated:

16%

of exposed HCPs writing **brand prescriptions**

50

New high-value scripts, increasing incremental brand demand

9%

Demand lift per HCP of physicians exposed to the program

Increasing Brand Touchpoints and Script Lift with Platform

CLIENT GOAL

Increase the number of oncology brand touchpoints by capitalizing on HCP social media presence.

CLIENT CHALLENGES

- Multi-indication therapy needed to keep suitability for numerous diseases top-of-mind.
- Oncologists highly present on social media, but untapped opportunity for brand engagement.

RESULTS

In a three-month pilot, DAAP delivered:

33%

Total **script lift** among HCPs receiving both EHR+Social messages

44%

More physicians reached due to social activation

142%

Greater script impact from combined EHR+Social execution, compared to single-tactic execution

1K+

Incremental **scripts**

Large, Under Penetrated Market With Tailwinds Driven by Increased Pharma Advertising Spend on Digital Channels

Key Performance Indicators

Our footprint in the top 20 pharmaceutical manufacturers positions us well to compete and win our share of the largest category of addressable commercial spend

KPIs	Trailing Twelve Months	
	June 30, 2026	June 30, 2025
Average revenue per top 20 pharmaceutical manufacturer	\$2.7M	\$3.1M
% of total revenue attributable to top 20 pharmaceutical manufacturers	54%	59%
Net revenue retention	90%	121%
Revenue per average full-time employee	\$750K	\$767K

Definition of Key Performance Indicators (KPIs)

- **Top 20 pharmaceutical manufacturers:** Top 20 pharmaceutical manufacturers are based on Fierce Pharma's "The top 20 pharma companies by 2025 revenue."
- **Net revenue retention:** Net revenue retention is a comparison of revenue generated from all customers in the previous period to total revenue generated from the same customers in the following year (i.e., excludes new customer relationships for the most recent year).
- **Revenue per average full-time employee:** We define revenue per average full-time employee (FTE) as total revenue over the last 12 months (LTM) divided by the average number of employees over the LTM.

Strong Financial Momentum

Q2 2026 RESULTS

\$20.5M
Revenue

\$(0.7)M
GAAP Net
Income

\$4.9M
Adjusted EBITDA

ANNUAL REVENUE GROWTH (millions)

Fiscal 2026 guidance calls for revenue between \$95M and \$100M with an adjusted EBITDA between \$21M and \$25M.

Key Takeaways

Reconciliation of GAAP to NON-GAAP FINANCIAL MEASURES (in thousands, except share and per share data, unaudited)

- This presentation includes certain financial measures that are not prepared in accordance with generally accepted accounting principles (GAAP). These non-GAAP financial measures are performance measures that are not defined under GAAP and should be considered in addition to, and not as a substitute for, the most directly comparable GAAP measures. They may also not be comparable to similarly titled measures reported by other companies. Management believes that presenting these non-GAAP financial measures provides useful supplemental information that facilitates comparison of the Company's historical operating results and trends and offers transparency into how management evaluates the business. Management uses these measures in making financial, operating and planning decisions and in evaluating the Company's performance. Excluding items that management does not consider reflective of ongoing operating results improves the comparability of year-over-year results and helps investors better understand the Company's underlying performance. These adjustments may include items such as asset impairment charges, amortization, stock-based compensation, acquisition expenses, severance related to executive departures and reductions in force initiatives, shareholder activist related fees, CEO search fees, CMO search fees, other income, estimated income tax impact from adjustments and other items that management believes are not related to the Company's ongoing performance.

	For the Three Months Ended June 30,		For the Six Months Ended June 30,	
	2026	2025	2026	2025
Net income (loss)	\$ (703)	\$ 1,532	\$ (1,198)	\$ (667)
Depreciation and amortization	1,064	1,074	2,128	2,168
Stock-based compensation	2,208	1,488	4,036	3,046
Severance expenses	1,714	—	1,744	275
Shareholder activist related fees	—	—	—	451
CEO search fees	—	—	—	225
CMO search fees	40	—	40	—
Other income	(38)	(37)	(76)	(76)
Amortization of debt issuance costs	277	437	635	611
Estimated income tax impact from adjustments*	(1,456)	(819)	(2,353)	(1,853)
Non-GAAP net income	\$ 3,106	\$ 3,675	\$ 4,956	\$ 4,180
Non-GAAP net income per share				
Diluted	\$ 0.16	\$ 0.19	\$ 0.26	\$ 0.22
Weighted average shares outstanding:				
Diluted	18,907,884	19,015,496	18,992,154	18,599,906
*Estimated income tax impact from adjustments - consists of current and deferred income tax expense commensurate with the level of adjusted income before income taxes and utilizes an estimated current, blended U.S. and state statutory annual tax rate of 27.6% for all fiscal periods of fiscal 2026 and fiscal 2025. This rate may be subject to change in the future, including as a result of changes in tax policy or tax strategy.				
	For the Three Months Ended June 30,		For the Six Months Ended June 30,
