OPTIMIZER_x CORPORATION
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
SEPTEMBER 30, 2011

NOTE 1 – NATURE OF BUSINESS

Optimizer Systems, LLC was formed in the State of Michigan on January 31, 2006. It then became a corporation in the State of Michigan on October 22, 2007 and changed its name to OptimizeRx Corporation. On April 14, 2008, RFID, Ltd., a Colorado corporation, consummated a reverse merger by entering into a share exchange agreement with the stockholders of OptimizeRx Corporation, pursuant to which the stockholders of OptimizeRx Corporation exchanged all of the issued and outstanding capital stock of OptimizeRx Corporation for 1,256,958 shares of common stock of RFID, Ltd., representing 100% of the outstanding capital stock of RFID, Ltd. As of April 30, 2008, RFID's officers and directors resigned their positions and RFID changed its business to OptimizeRx's business. On April 15, 2008, RFID, Ltd.'s corporate name was changed to OptimizeRx Corporation. On September 4, 2008, a migratory merger was completed, thereby changing the state of incorporation from Colorado to Nevada, resulting in the current corporate structure, in which OptimizeRx Corporation, a Nevada corporation, is the parent corporation, and OptimizeRx Corporation, a Michigan corporation, is a wholly-owned subsidiary (together, "OptimizeRx" and "the Company").

The wholly-owned subsidiary, OptimizeRx Corporation, is a technology solutions company targeting the health care industry. Their objective is to bring better access to better care through connecting patients, physicians and pharmaceutical manufacturers through technology. Once defined as a marketing and advertising company through its consumer website, OptimizeRx is maturing as a technology solutions provider as it launched its direct to physician solution, SampleMD. SampleMD allows physicians to search, print and send available sample trial vouchers and/or co-pay coupons on behalf of their patients. The SampleMD solution can either sit on the doctor's desktop or can be integrated into the ePrescribing or Electronic Medical Records applications. OptimizeRx solutions provide pharmaceutical manufacturers either a direct to consumer and/or direct to physician channels for communicating and promoting their products. It provides health care providers a means to provide sampling and coupons without having to physically store samples on site, and it provides better access and affordability to the patients.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The accompanying unaudited interim financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America and the rules of the Securities and Exchange Commission ("SEC"), and should be read in conjunction with the audited financial statements and notes thereto contained in the Company's Form 10-K filed with the SEC as of and for the period ended December 31, 2010. In the opinion of management, all adjustments necessary for the financial statements to be not misleading for the interim periods presented have been reflected herein. The results of operations for interim periods are not necessarily indicative of the results to be expected for the full year.

Accounting Basis

The Company uses the accrual basis of accounting and accounting principles generally accepted in the United States of America ("GAAP" accounting). The Company has adopted a December 31 fiscal year end.

Principles of Consolidation

The financial statements reflect the consolidated results of OptimizeRx Corporation (a Nevada corporation) and its wholly owned subsidiary OptimizeRx Corporation (a Michigan corporation). All material inter-company transactions have been eliminated in the consolidation.

SEPTEMBER 30, 2011

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Reclassifications

Certain accounts and financial statement captions in the prior periods have been reclassified to conform to the current period financial statements.

Cash and Cash Equivalents

For purposes of the accompanying financial statements, the Company considers all highly liquid instruments with an initial maturity of three months or less to be cash equivalents.

Fair Value of Financial Instruments

The fair value of cash, accounts receivable, prepaid expenses, accounts payable, accounts payable – related party, accrued expenses and interest and deferred revenue approximates the carrying amount of these financial instruments due to their short-term nature. The fair value of long-term debt, which approximates its carrying value, is based on current rates at which the Company could borrow funds with similar remaining maturities.

Property and Equipment

The capital assets are being depreciated over their estimated useful lives, three to seven years using the straight-line method of depreciation for book purposes.

Revenue Recognition

All revenue is recognized when it is earned. Revenues are generated either through the Company's website activities, in which we earn revenue from advertising and lead generation activities, or from our SampleMD activities, which include offering setup within the systems and our offers, coupons, and vouchers that enable our customers to save money on medical products and services. The Company's processes are monitored by third parties who collect revenues from clients on a per activity basis and report and forward the revenue to the Company's account.

Income Taxes

Income taxes are computed using the asset and liability method. Under the asset and liability method, deferred income tax assets and liabilities are determined based on the differences between the financial reporting and tax bases of assets and liabilities and are measured using the currently enacted tax rates and laws. A valuation allowance is provided for the amount of deferred tax assets that, based on available evidence, are not expected to be realized.

Concentration of Credit Risks

The Company maintains its cash and cash equivalents in bank deposit accounts, which, at times, may exceed federally insured limits. The Company has not experienced any losses in such accounts; however, amounts in excess of the federally insured limit may be at risk if the bank experiences financial difficulties.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Estimates and assumptions have been made in determining the depreciable lives of such assets and the allowance for doubtful accounts receivable. Actual results could differ from these estimates.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)Research and Development

The Company's key members are part of a continual research development team and monitor new technologies, trends, services and partnerships that can provide the Company with additional services, value to healthcare and pharmaceutical industries and to the patients it serves.

The Company seeks to educate team members through understanding of all market dynamics that have the potential to affect the business both short term and longer term. The primary goal is to help patients better afford and access the medicines their doctor prescribes, as well as other healthcare products and services they need. Based on this, the Company continually seeks better ways to meet this mission through technology, better user experiences and new ways to engage industries to provide new support for patients needing their products. The Company is always seeking new services and solutions to offer. At this time, the three current platforms provide robust opportunities and growth during the next five years.

Earnings Per Common and Common Equivalent Share

The computation of basic earnings per common share is computed using the weighted average number of common shares outstanding during the year. The computation of diluted earnings per common share is based on the weighted average number of shares outstanding during the year plus common stock equivalents which would arise from the exercise of warrants outstanding using the treasury stock method and the average market price per share during the year. Options warrants and convertible preferred stock which are common stock equivalents are not included in the diluted earnings per share calculation for September 30, 2011 and 2010, respectively, since their effect is anti-dilutive.

Impairment of Long-Lived Assets

The Company continually monitors events and changes in circumstances that could indicate carrying amounts of long-lived assets may not be recoverable. When such events or changes in circumstances are present, the Company assesses the recoverability of long-lived assets by determining whether the carrying value of such assets will be recovered through undiscounted expected future cash flows. If the total of the future cash flows is less than the carrying amount of those assets, the Company recognizes an impairment loss based on the excess of the carrying amount over the fair value of the assets. Assets to be disposed of are reported at the lower of the carrying amount or the fair value less costs to sell.

Recently Issued Accounting Guidance

The Company does not expect the adoption of recently issued accounting pronouncements to have a significant impact on the Company's results of operations, financial position or cash flow.

Web development costs, net	\$ 438,761	\$ 332,107

The Company began amortizing the OptimizeRx website costs, using the straight-line method over the estimated useful life of 5 years, once it was put into service in December of 2007. During the year end December 31, 2009, the Company began a new web-based project and the related programming and development costs have been capitalized for the SampleMD website. The project was completed in mid-December 2010 and no amortization was recorded in 2010. Amortization began on the straight-line method in January 2011 over the period of five years. Although the Project was completed in mid-December, the Company continues to enhance and upgrade the website. Monthly payments for these upgrades have been capitalized, but not amortized, as of September 30, 2011. The Company determined that the original OptimizeRx website was no longer useful so the remaining unamortized balance of \$59,083 was impaired as of December 31, 2010. Amortization expense was \$47,761 for the nine months ended September 30, 2011 and \$30,827 for the year ended December 31, 2010, respectively.

NOTE 6 – PATENT RIGHTS AND INTANGIBLE ASSETS

On April 26, 2010, the Company acquired from an officer and shareholder the technical contributions and assignment of all exclusive rights to and for the SampleMD patent currently in process in exchange for 300,000 shares of common stock to be granted at the discretion of the seller in addition to 200,000 stock options valued at \$360,000. The shares were valued on the grant date at \$570,000 and have been recorded as a payable to the related party.

OPTIMIZERx CORPORATION
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
SEPTEMBER 30, 2011

NOTE 6 – PATENT RIGHTS AND INTANGIBLE ASSETS (CONTINUED)

The Company has capitalized costs in purchasing the SampleMD patent, which consisted of the following as of September 30, 2011 and December 31, 2010:

	September 30, 2011	December 31, 2010
Patent rights and intangible assets	\$ 930,000	\$ 930,000
Accumulated amortization	(68,382)	(27,353)
Patent rights and intangible assets, net	<u>\$ 861,618</u>	<u>\$ 902,647</u>

The Company began amortizing the patent, using the straight-line method over the estimated useful life of 17 years, once it was put into service in July 2010. Amortization expense was \$41,029 for the nine months ended September 30, 2011 and \$27,353 for the year ended December 31, 2010, respectively.

NOTE 7 – ACCRUED EXPENSES

Accrued expenses consisted of the following as of September 30, 2011 and December 31, 2010:

	September 30, 2011	December 31, 2010
Accrued payroll taxes	\$ 0	\$ 700
Accrued audit fees	0	5,000
Accrued expenses	<u>\$ 0</u>	<u>\$ 5,700</u>

NOTE 8 – DEFERRED REVENUE

The Company has signed several contracts with customers for coupon redemptions on their website. The payments are not taken into revenue until the end user redeems the coupon. The redemptions are tracked via their website and revenues are recorded as the coupons are redeemed. Deferred revenue was \$140,300 and \$225,720 as of September 30, 2011 and December 31, 2010, respectively.

NOTE 9 – NOTE PAYABLE

On October 5, 2010, the Company issued a secured promissory note of \$1,000,000 to an investor. The note accrues interest at 6% per annum, compounded on April and October each year and will be paid at the earliest of September 12, 2012 or earlier at the Company's option. No principal or interest payments are required until the maturity date. Accrued interest was \$15,000 as of December 31, 2010. The terms of the note also granted 1,000,000 stock warrants and 1,000,000 contingent stock warrants in connection with the financing. The non-contingent warrants were valued at \$1,007,992 with \$1,000,000 recorded as debt discount and \$7,992 recorded as interest expense in the December 31, 2010 year. The Company analyzed the assumptions associated with the contingent warrants and determined that the performance objectives were not likely to occur in 2011. Therefore, no value was recorded for the contingent warrants. The debt discount derived from the warrant valuation of \$1,000,000 was being amortized over the life of the loan using the straight-line method and charged to interest expense.

On September 16, 2011, the Company entered into a Termination Agreement, in conjunction with a Securities Purchase Agreement with another investor. Under the Termination Agreement, the Company paid off the \$1,000,000 promissory note, plus all accrued interest to date. Upon payment of the note, the contingent stock warrants obligation was terminated and the remaining debt discount from the warrant valuation was expensed. See Note 12.

NOTE 18 – GOING CONCERN

The accompanying financial statements have been prepared assuming that the Company will continue as a going concern. The Company has sustained substantial losses from operations.

In view of this matter, the ability of the Company to continue as a going concern is dependent upon growth of revenues and the ability of the Company to raise additional capital. Management believes that its successful ability to raise capital and their plans for increases in revenues will provide the opportunity for the Company to continue as a going concern.

NOTE 19 – SUBSEQUENT EVENTS

On February 10, 2011, the Company filed a demand for arbitration (the “Demand”) with the American Arbitration Association (“AAA”) in Oakland County, Michigan based on a dispute between the Company and Beringea surrounding a capital raising agreement that was entered into on October 15, 2009. On September 30, 2011 a final arbitration award (the “Award”) was issued by an AAA arbitrator. According to the Award, we are entitled to recover \$202,500 from Beringea on the claim of gross negligence, and \$88,000 for the costs of enforcing the agreement, including attorneys’ fees and expenses. All other claims sought in the Demand were denied. As of November 7, 2011, no proceeds have been received.

Overview

We continue to work diligently to build out our SampleMD™ solution which provides the ability to search and select free sample vouchers and co-pay assistance by prescribing clinicians on behalf of their patients. We installed the SampleMD™ solution within our first health system in November of 2010. In parallel to our efforts of providing the doctors desktop version of the SampleMD™ solution to health systems that have eliminated access to pharmaceutical representatives, we also continue to work with Allscripts where we have integrated our solution right within their electronic prescribing application. The Allscripts ePrescribe solution was launched in mid December of 2010. These launches were inclusive of those handful of early adopting pharmaceutical manufacturers which saw the benefits and potentials of this new channel in reaching prescribing clinicians that prior were inaccessible.

With the completed launch of SampleMD™ to various health systems and within the Allscripts solutions, we began 2011 with two major focuses. First, we set out to improve the field functionality and adoption by prescribing clinicians of our SampleMD™ solution. Early feedback from prescribing clinicians was positive. Overall, for both installed environments, desk top and eRx, clinicians were satisfied with the ease and availability of our SampleMD™ solution. With the feedback we received, we continued to enhance and update product ease, usability and speed. We project that our SampleMD™ 3.0 will feature components with easier access to formulary information, broader search capabilities and a scheduler for pharmaceutical representatives. Additionally, SampleMD™ will be integrated not only within ePrescribing environments, but also within Electronic Medical (EMR) and Electronic Health Record (EHR) environments – right within the clinicians work stream.

In the 3rd quarter of fiscal year 2011, we continued to generate revenue while fine tuning both the SampleMD™ stand alone solution as well as our integration with Allscript ePrescribing application. Additionally, we continue to generate great interest from health systems looking for an alternative means to provide samples and co-pay assistance to their patients. We are gaining momentum with pharmaceutical manufacturers and their brands as an alternative channel to the physician as well as interest from ePrescribing and EMR providers as an extension of their offering portfolio and revenue sharing. These efforts have expanded our offerings portfolio as we now have twelve (12) major pharmaceutical manufacturers, forty six (46) brands, and sixty (60) offerings distributed via health system widgets and integrated Allscripts ePrescribing.

The 3rd quarter also highlighted securing additional financing to support our continued growth and the recognized need for additional resources within the technical, sales and administrative disciplines. As a portion of the initial proceeds was used to pay back the note to Physicians Interactive, the balance of the funds will be used to support the acquisition of additional resources needed to support our growth.

For our year to date performance, we continue on track while gaining exposure within the marketplace. We have focused on driving our market message and gained significant exposure while participating in the Allscripts User Conference in August of 2011. With some 3500 plus attendees, we gained valuable exposure to health systems and pharmaceutical manufacturers. Additionally, we participated within the HIMMS health care technology conference, the Marcus Evan Executive Marketing roundtable and launched an Ad campaign surrounding our SampleMD™ solution and its benefits to the health care provider advertising in Pharmaceutical Executive Magazine. It is our intent to continue to drive market awareness, secure additional sales, align with additional channel partners, and to acquire the necessary resources to support our continued growth.

Results of Operations for the Three and Nine Months Ended September 30, 2011 and 2010

Revenues

Our total revenue reported for three months ended September 30, 2011 was \$191,593, an increase from \$40,676 for the three months ended September 30, 2010. Our total revenue reported for nine months ended September 30, 2011 was \$785,610, an increase from \$58,679 for the nine months ended September 30, 2010.

Our increased revenue for the three and nine months ended September 30, 2011 as compared with the prior year periods is a result of our SampleMD solution and the setup and integration fees for pharmaceutical manufacturers which are participating within this offering. We are in the process of extending and renewing existing contracts, solidifying new contracts, and broadening our distribution channel with leading e-prescribers and electronic medical record providers. We expect that these efforts will result in larger revenues for our fourth quarter.

Operating Expenses

Operating expenses decreased to \$482,635 for the three months ended September 30, 2011 from \$545,889 for the same period ended 2010. Operating expenses decreased to \$1,445,070 for the nine months ended September 30, 2011 from \$1,701,067 for the same period ended 2010. Our operating expenses have decreased in the three and nine months ended September 30, 2011 as compared with the prior year periods largely as a result of a decrease in stock-based compensation, which is included in the category for “consulting” expenses, and a decrease in legal and accounting costs. Operating activities used \$604,364 in cash for the nine months ended September 30, 2011. Our net loss of \$1,616,994, prepaid expenses of \$116,405, deferred revenue of \$85,420 and accrued expenses of \$63,200 were the primary components of our negative operating cash flow, offset mainly by \$916,667 in amortization of debt discount, \$104,255 in accounts receivable, \$83,992 in stock issued for services, and \$90,149 in depreciation and amortization. Investing activities used \$154,415 during the nine months ended September 30, 2011 as a result of website development costs. Financing activities provided \$500,000 for the nine months ended September 30, 2011 as a result of \$855,460 from the issuance of preferred stock, 644,540 from the issuance of warrants in connection with the preferred stock, offset by \$1,000,000 made on the payment of a loan.

On September 16, 2011, we entered into a Securities Purchase Agreement with Vicis Capital Master Fund, a sub-trust of Vicis Capital Series Master Trust, a unit trust organized and existing under the laws of the Cayman Islands (“Vicis”), and our wholly-owned subsidiary, OptimizeRx Corporation, a Michigan corporation (the “Guarantor”) entered into an Amended and Restated Guarantor Agreement with Vicis for sale of up to 50 shares of our Series B Preferred Stock and warrants to purchase up to 3,333,334 shares of our common stock with an exercise price of \$3.00 per share (the “Vicis Warrants”).

The first closing of the financing, which has occurred, was for the sale of 15 shares of Series B Preferred Stock and a warrant to purchase 1,000,000 shares of our common stock at the above exercise price for \$1,500,000. This money was used to pay off a secured promissory note (the “Note”) in the principal amount of \$1,000,000 to Physicians Interactive, Inc., a Delaware corporation and the remainder will be used for working capital to our company.

A subsequent closing may occur at our option commencing on December 1, 2011 for the sale of an additional 15 shares of Series B Preferred Stock and a warrant to purchase an additional 1,000,000 shares of our common stock for \$1,500,000. A final subsequent closing may occur at our option commencing on May 1, 2012 for the sale of an additional 20 shares of Series B Preferred Stock and a warrant to purchase an additional 1,333,334 shares of our common stock for \$2,000,000.

Each share of Series B Preferred Stock is convertible at the option of the holder into that number of shares of our common stock equal to the Stated Value (\$100,000) divided by a per share price of the common stock of \$1.50 per share (the "Conversion Price"). A holder may effect a conversion at any time after the earlier of (a) the time that the Securities and Exchange Commission declares effective a registration statement registering the shares of common stock to be sold by the holder that underlie the shares of Series B Preferred Stock held by such holder (the "Conversion Shares") and (b) the time such Conversion Shares are eligible for resale by the holder pursuant to Rule 144 of the Securities Act of 1933, as amended, (the "Conversion Eligibility Date").

If after the Conversion Eligibility Date the market price for the common stock for any ten consecutive trading days exceeds \$2.00 (subject to adjustment for reverse and forward stock splits, stock combinations and other similar transactions of the common stock that may occur) and the average daily trading volume for the common stock during such ten day period exceeds 100,000 shares (such period, the "Threshold Period"), the Company may, at any time after the fifth trading day after the end of any such period, deliver a notice to the holder (a "Forced Conversion Notice" and the date such notice is received by the holder, the "Forced Conversion Notice Date") to cause the holder to immediately convert all and not less than all of the Stated Value of the shares held by such Holder plus accumulated and unpaid dividends at the then current Conversion Price (a "Forced Conversion"). We may only effect a Forced Conversion Notice if all of the conditions specified in the purchase agreement are met through the applicable Threshold Period until the date of the applicable Forced Conversion and through and including the date such shares of common stock are issued to the holder.

The Vicis Warrants are exercisable for a period of seven years at an exercise price of \$3.00 per share. The Vicis Warrants are also exercisable on a cashless basis. In addition, the Vicis Warrants are subject to anti-dilution adjustments and protections in the event of stock splits and stock dividends, subsequent equity sales entitling persons to acquire shares of common stock at an effective price per share that is lower than the then exercise price of the warrants and subsequent rights offerings, in the event we issue rights, options or warrant to all holders of common stock and not to the warrant holders, pro rata distributions of assets or indebtedness and fundamental transactions, such as a merger, consolidation or recapitalization. The anti-dilution adjustment shall apply the lowest sale price as being the adjusted option price or conversion ratio for existing shareholders.

With the above financing and cash on hand, we believe we have sufficient cash to both operate our business and provide for our growth needs for the next twelve months

Off Balance Sheet Arrangements

As of September 30, 2011, there were no off balance sheet arrangements.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

A smaller reporting company is not required to provide the information required by this Item.

Item 4T. Controls and Procedures

We carried out an evaluation of the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) as of September 30, 2011. This evaluation was carried out under the supervision and with the participation of our Chief Executive Officer and Chief Financial Officer, Mr. David Lester. Based upon that evaluation, our Chief Executive Officer and Chief Financial Officer concluded that, as of September 30, 2011, our disclosure controls and procedures are effective. There have been no significant changes in our internal controls over financial reporting during the quarter ended September 30, 2011 that have materially affected or are reasonably likely to materially affect such controls.

Disclosure controls and procedures are controls and other procedures that are designed to ensure that information required to be disclosed in our reports filed or submitted under the Exchange Act are recorded, processed, summarized and reported, within the time periods specified in the SEC's rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed in our reports filed under the Exchange Act is accumulated and communicated to management, including our Chief Executive Officer and Chief Financial Officer, to allow timely decisions regarding required disclosure.

Limitations on the Effectiveness of Internal Controls

Our management does not expect that our disclosure controls and procedures or our internal control over financial reporting will necessarily prevent all fraud and material error. An internal control system, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met. Further, the design of a control system must reflect the fact that there are resource constraints, and the benefits of controls must be considered relative to their costs. Because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, within the Company have been detected. These inherent limitations include the realities that judgments in decision-making can be faulty, and that breakdowns can occur because of simple error or mistake. Additionally, controls can be circumvented by the individual acts of some persons, by collusion of two or more people, or by management override of the internal control. The design of any system of controls also is based in part upon certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions. Over time, control may become inadequate because of changes in conditions, or the degree of compliance with the policies or procedures may deteriorate.

PART II – OTHER INFORMATION

Item 1. Legal Proceedings

Aside from the following, we are not a party to any pending legal proceeding, and we are not aware of any pending legal proceeding to which any of our officers, directors, or any beneficial holders of 5% or more of our voting securities are adverse to us or have a material interest adverse to us.

On February 10, 2011, we commenced an action against Beringea, LLC (“Beringea”) with the American Arbitration Association (“AAA”) in Oakland County, Michigan. The action is based on a dispute between our company and Beringea surrounding a capital raising agreement that was entered into on October 15, 2009. We have alleged that Beringea has failed to perform under the agreement, misinformed us about “tail” liability, and is wrongfully withholding funds due to us. We sought \$400,000 in damages.

On September 30, 2011 a final arbitration award (the “Award”) was issued by an AAA arbitrator. According to the Award, we are entitled to recover \$202,500 from Beringea on the claim of gross negligence, and \$88,000 for the costs of enforcing the agreement, including attorneys’ fees and expenses. All other claims sought in the Demand were denied.

On August 18, 2010, we commenced an action against Midtown Partners & Co., LLC (“Midtown Partners”) in the Circuit Court for the County of Oakland in the State of Michigan. The action is based on a dispute between our company and Midtown Partners surrounding a placement agent agreement that was entered into on June 27, 2008. We filed the action seeking declaratory relief that no compensation is due and owing to Midtown Partners in connection with an investment made by on June 4, 2010.

Midtown Partners removed the action to the United States District Court for the Eastern District of Michigan. On June 30, 2011, we entered into a settlement agreement with Midtown Partners. Under the settlement agreement, we paid Midtown Partners \$57,500 and issued the company 100,000 shares of our common stock. As a result of the settlement, the litigation in the Eastern District of Michigan was dismissed.

Item 1A: Risk Factors

A smaller reporting company is not required to provide the information required by this Item.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

During the current reporting period, we issued the following securities:

During the quarter ended September 30, 2011, we issued 475,820 shares of common stock to satisfy \$500,000 of preferred dividends to Vicis.

[Table of Contents](#)

These issuances were deemed to be exempt under rule 506 of Regulation D and Section 4(2) of the Securities Act of 1933, as amended, since, among other things, the transactions did not involve a public offering, the investors were accredited investors and / or qualified institutional buyers, the investors had access to information about the Company and their investment, the investors took the securities for investment and not resale, and the Company took appropriate measures to restrict the transfer of the securities.

The Parties expressly understand and acknowledge that each Party's business and reputation are of special, unique and extraordinary character, which give them a particular value, the loss of which cannot reasonably be compensated in damages in an action at law. Accordingly, the Parties further agree that in addition to any other rights or remedies that any other party may possess at law, any aggrieved Party shall be entitled to injunctive and other equitable relief in order to prevent or remedy a breach of the provisions of this section by any Party hereto. Nothing contained in this Settlement Agreement shall preclude a lawsuit by any Party hereto against another Party for the enforcement of this Agreement and in particular this Section.

11. This Settlement Agreement shall survive the release of any claims.

12. This Settlement Agreement represents the entire understanding and agreement between the Parties with respect to the subject matter hereof and cannot be amended, supplemented, or changed in any respect, except by a written instrument signed by the Party against whom enforcement of any such amendment, supplement, or modification is sought. 16. Each Party acknowledges that the party had the opportunity to seek the advice of counsel of the Party's choosing in reviewing this Settlement Agreement and each acknowledges that the Party enters into this Settlement Agreement of the Party's own free and voluntary act and will and is under no duress or undue influence. The Parties also agree that the Parties and/or their counsel participated in the negotiation and drafting of this Settlement Agreement. The terms of the Settlement Agreement shall not be construed against a Party solely because of a Party's participation in the drafting of this Settlement Agreement.

17. SECURITIES LAW REPRESENTATIONS. Midtown hereby represents, warrants and agrees to the following:

(a) THE SHARES TO BE ISSUED PURSUANT TO SECTION 1(B) ABOVE HAVE NOT BEEN REGISTERED UNDER THE SECURITIES ACT OF 1933, AS AMENDED (THE "ACT"), OR THE SECURITIES LAWS OF ANY STATE, AND ARE BEING ISSUED IN RELIANCE ON EXEMPTIONS FROM THE REGISTRATION REQUIREMENTS OF THE ACT AND SUCH LAWS. THE SHARES HAVE NOT BEEN APPROVED OR DISAPPROVED BY THE SECURITIES AND EXCHANGE COMMISSION, OR BY THE SECURITIES REGULATORY AUTHORITY OF ANY STATE, NOR HAVE ANY OF THE FOREGOING AUTHORITIES PASSED UPON OR ENDORSED THE MERITS OF THIS INVESTMENT. ANY REPRESENTATION TO THE CONTRARY IS UNLAWFUL. THE SHARES MAY NOT BE TRANSFERRED, WHOLLY OR IN PART, EXCEPT IN COMPLIANCE WITH APPLICABLE SECURITIES LAWS.

(b) The Shares are being issued for Midtown's own account for investment and not with a view for distribution or resale to others. Midtown agrees that it will not sell or otherwise transfer the Shares unless: (i) the Shares represented have been registered under the Act and applicable state securities laws or, in the opinion of counsel acceptable to OptimizeRx, an exemption from registration is available; and (ii) such transfer will not, in the opinion of counsel acceptable to OptimizeRx, cause OptimizeRx to violate any of the applicable federal and state securities laws and regulations.

(c). Midtown is an "Accredited Investor" as deemed in Rule 501 of Regulation D under the Act.

(d) Midtown has such knowledge and experience in financial and business matters in general and in particular with respect to this type of investment that Midtown is capable of evaluating the merits and risks of an investment in OptimizeRx.

(e) Midtown represents that it has adequate means of providing for its current needs and possible future financial contingencies and that Midtown has no need for liquidity in the Shares.

(f) Midtown recognizes, understands and has evaluated all of the disclosures and risk factors related to OptimizeRx and the Shares as disclosed in OptimizeRx's periodic reports filed with the U.S. Securities and Exchange Commission. Midtown is aware that this investment is speculative and involves a high degree of risk and that there is no assurance as to the future performance of OptimizeRx. Midtown has been given an opportunity to ask OptimizeRx questions related to OptimizeRx's financial condition and plans of operations. OPTIMIZERX HAS NOT MADE TO MIDTOWN, NOR IS HEREBY MAKING TO MIDTOWN, ANY REPRESENTATION OR WARRANTY RELATING TO ITS CURRENT OR FUTURE FINANCIAL CONDITION OR TO ANY OF ITS CURRENT OR FUTURE PLANS OF OPERATIONS.

(g) Midtown hereby acknowledges that it has discussed with its professional, legal, tax and financial advisors the suitability of an investment in OptimizeRx for Midtown's particular tax and financial situation.

IN WITNESS WHEREOF, the Parties have signed this Settlement Agreement effective the date first written above.
