Item 1. Business

Company Overview

We conduct all of our operations through our wholly-owned subsidiary, OptimizeRx Michigan. We are a development-stage company that has developed a direct to consumer website, www.optimizeRx.com (our “Site”), to help medical patients better afford and manage their rising healthcare costs. In addition, we provide unique advertising programs to the pharmaceutical and healthcare industries.

We recognize that patients have increasing influence in their healthcare decisions, particularly in their medications: what to buy, where to buy, and how to buy. However, there is very little information available to consumers regarding how to access available savings and support programs. We developed our Site to enable consumers to meet their prescribed pharmacological therapies in the most cost-effective manner possible. Our Site is a portal that identifies programs and savings that are available to consumers, based upon their needs. By creating a portal by which consumers access savings on their pharmaceutical needs, we have also created a Site where pharmaceutical companies can reach consumers with their advertising and other programs.

Principal Products and Applications

- o OPTIMIZERx.com – Our Site is a portal to healthcare savings for patients to centrally review and participate in prescription and healthcare savings and support programs. We strive to provide all the information and guidance that patients undergoing long-term pharmaceutical treatments may require. Patients can search by their medication or their condition in order to access educational information regarding their condition, information regarding their medication, coupons for instant savings when they purchase their medications, information on free drug trials, and guidance to any other savings programs available to them.

By providing information as well as significant savings opportunities to users of our Site, we hope to become the default medical website for both patients and the pharmaceutical industry. We feel that the aging of the baby boom generation, combined with the preponderance of internet usage to access information and savings in all areas, has created a large potential market for our Site. The Site is also the launching point for our other products, OFFERx and ADHERxE.

- o OFFERx – We have entered into an exclusive relationship with Cegedim Dendrite’s OPUS Health division (“OPUS”). OPUS specializes in developing pharmaceutical sales and marketing programs, having pioneered the use of pharmacy loyalty cards. They also have the largest pharmacy network in the industry, having contracted with over 61,000 pharmacies. Through our relationship with OPUS, we gain access to and have the opportunity to offer programs for the pharmacies in OPUS’s network. OPUS, in turn, manages the loyalty cards generated through the program, building their patient database as well.

Our turn-key online platform, OFFERx, allows manufacturers to create, promote, and fulfill new medication offering programs directly in all of the pharmacies that participate in our system, which now includes the over 61,000 pharmacies in OPUS’s network. Through our simple online interface, pharmaceutical manufacturers can offer coupons, discounts, and free trials directly to patients on our Site. This gives a significant level of control to manufacturers regarding the timing and level of their discounts. It also allows unprecedented flexibility in responding to market conditions as manufacturers will no longer need to allow for the long lead times necessary to prepare, print, and distribute the materials traditionally required for such programs.

- o ADHERxE – We previously entered into an exclusive relationship with S&H Digital (“S&H”), the Interactive division of Suddler and Hennessey of WPP healthcare communications agency. Subsequent to the reporting period, we have terminated the agreement with S&H for non-performance. Instead of using S&P services for creating the content and managing ADHERxE, we have built out a reporting scheme (through the SampleMD technology).

AHERxE is our turn-key online platform that allows manufacturers to engage and monitor patients each month in exchange for activation of their monthly co-pay coupons. Pharmaceutical companies that wish to monitor the usage and effectiveness of their products through online surveys are able to provide incentives for patients to participate in the surveys by providing discounts through online coupons available on our Site. Patients complete an initial survey to determine their treatment status. Each month, when patients respond to reminder emails and complete the manufacturer’s ongoing survey, they receive a coupon for discounts on their medications copays. This helps patients afford their medications and provides a way for pharmaceutical companies to track patient usage and results of treatment programs.

- o SampleMD - Today, almost 2/3 of doctors’ offices ban or limit drug representative and samples. Although samples are still valuable, many healthcare systems and doctors are looking for an easier, more effective way to increase affordable access and adherence to their prescribed branded medications which lead us during the past year to develop our direct to physician solution called SampleMD.

SampleMD is a revolutionary downloadable virtual "Patient Support Center" that allows doctors and staff to access a universe of sample vouchers, co-pay coupons and the fulfillment and adjudication of claims directly from their desktops. Doctors and healthcare providers utilize the SampleMD application from their computer desktops or integrate it into their EMR and/or e-Prescribe systems to search, print or electronically dispense drug samples and co-pay coupons through a national network of pharmacies. SampleMD eliminates the need for physicians to manage and store physical drug samples by offering a more convenient and efficient way to allocate, administer and track samples and co-pay savings provided to their patients. Doctors can also review a branded drug's formulary status within the patients' insurance plan to determine at what level the product is paid/reimbursed. With an integrated automated communications capability, SampleMD will also provide on-going patient support and delivery of monthly co-pay savings to promote continued drug compliance for chronic conditions such as diabetes, heart disease and asthma.

Marketing and Sales

With our marketing partners, we intend to promote OPTIMIZERx and SampleMD primarily through the following:

- Internet Marketing
- Public Relations Campaigns
- Physician Offices
- Direct to Consumer Marketing
- Newspaper and Advertising
- Cable TV
- Pharmacy Partners
- Fortune 500 Employers- Benefits Departments
- Unions and Other Church and Civic organizations
- Physician Organizations and Associations
- Strategic Relationships

For distribution and sales purposes, we rely on internal and independent sales representatives. Additionally, we have entered into co-promotional agreements with both OPUS and S&H as detailed above.

Research and Development

All of our officers and directors are part of our continual research development team and monitor new technologies, trends, services, and partnerships that can help us provide additional services and increased value to the healthcare and pharmaceutical industries and to the patients we serve.

Additionally, for the development of SampleMD and enhancements to our technology, OPTIMIZERx has aligned with the Engineering and Information Technology department of Oakland University in Rochester Michigan. They bring highly skilled technology and application developers as well as a solid knowledge of the medical industry.

As mentioned prior, we are currently in the launch phase of SampleMD, our direct to physician solution aimed at simplifying the business processes of providing, administrating, and distributing branded prescription medications to patients. Our continued efforts, complimenting SampleMD with OPTIMIZERx is to provide better affordability for better healthcare.

We seek to educate our team through an understanding of all market dynamics that have the potential to affect our business in both the short and long term. Our primary goal is to help patients better afford and access the medicines their doctors prescribe, as well as other healthcare products and services they need. Based on this goal, we continually seek better ways to meet this mission through the use of improved technology, user feedback, and working closely with the pharmaceutical industry. We are continually seeking new ways we can engage the pharmaceutical industry to provide new support programs to patients in need of their products.

Competition

We will compete in the highly competitive pharmaceutical and healthcare advertising industry that is dominated by large well-known companies with established names, solid market niches, wide arrays of product offerings and marketing networks. Our largest competitors include a variety of healthcare website publishers and networks who provide online advertising competition to OPTIMIZERx.com, including Quality Health, WebMD, McKesson, and Drugs.com.

- Quality Health – Quality Health hosts an interactive website that allows users to research information regarding medical conditions, medications, and treatments. Visitors to their website can also search for doctors or health centers in their area, both generally and specific to their condition.
- WebMD – WebMD provides in-depth reference material regarding medical conditions and medicines to users. Individuals can search for a diagnosis via symptoms or research details regarding their previously diagnosed medical conditions. Online support forums are also hosted for patients with particularly challenging conditions.
- McKesson – McKesson Corporation has been providing health care services in the United States for over 175 years. They act as a distributor for pharmaceutical companies to a network of pharmacies, and have developed online solutions for customers, third-party payors, and manufacturers. McKesson has significantly greater financial resources and brand recognition than we do.
- Drugs.com – Drugs.com provides free, accurate, and independent advice on more than 24,000 prescription drugs, over-the-counter medicines, and natural products. Their data sources include Micromedex™, Cerner Multum™, Wolters Kluwer™, and others. Users can search by condition or medication.

Companies who provide similar offer redemption services through a network of pharmacies, such as McKesson, could seek to disrupt our exclusive partnership with OPUS. However, each of our competitors could also be a partner in co-promotion of exclusive offer and adherence campaigns we create on behalf of the client through OFFERx and ADHERxE.

Our competitors who have not done so already may be able to enter into the field by developing a website to promote health care offers. However, most may be limited in their ability to create, promote and manage new and exclusive prescription trials or offers. Additionally, with ADHERxE and the ability to create multiple offers activated each month for returning patients who sign up, we believe that we are uniquely positioned with significant barriers to entry for potential competitors in this area.

Intellectual Property

All key aspects of our promotional and offer development platforms are pending patent review. However, business is not predicated on being awarded patent exclusiveness. Rather, patent protection represents a huge asset and further opportunity upon its receipt.

OPTIMIZERx is a licensed trademark.

Our intellectual property is developed significantly each month. Since inception, we have developed and launched OFFERx and ADHERxE, and we are further integrating these platforms to provide more robust offerings. OPTIMIZERx.com and OFFERx are patent pending.

The following table summarizes the status of our patents and patent applications as of the date hereof:

App Number/ Filing Date	Brief Summary (Products Covered)	Status
S.N. 11/528,292 September 27, 2006	System for providing patient savings and promoting health care product sales	Patent application pending.
S.N. 61/277,161 September 21,2009	VIRTUAL SAMPLE CABINET SYSTEM AND METHOD FOR PRESCRIPTION DRUG MARKETING	Patent application pending

Government Regulation

Fraud and Abuse Laws

Anti-Kickback Statutes

The federal healthcare program Anti-Kickback Statute prohibits persons from knowingly and willfully soliciting, offering, receiving or providing remuneration, directly or indirectly, in exchange for or to induce either the referral of an individual for, or the furnishing, arranging for or recommending a good or service for which payment may be made in whole or part under a federal healthcare program such as Medicare or Medicaid. The definition of remuneration has been broadly interpreted to include anything of value, including for example gifts, discounts, the furnishing of supplies or equipment, credit arrangements, payments of cash and waivers of payments. Several courts have interpreted the statute's intent requirement to mean that if any one purpose of an arrangement involving remuneration is to induce referrals or otherwise generate business involving goods or services reimbursed in whole or in part under federal healthcare programs, the statute has been violated. The law contains a few statutory exceptions, including payments to bona fide employees, certain discounts and certain payments to group purchasing organizations. Violations can result in significant penalties, imprisonment and exclusion from Medicare, Medicaid and other federal healthcare programs. Exclusion of a manufacturer would preclude any federal healthcare program from paying for its products. In addition, kickback arrangements can provide the basis for an action under the Federal False Claims Act, which is discussed in more detail below. The Anti-Kickback Statute is broad and potentially prohibits many arrangements and practices that are lawful in businesses outside of the healthcare industry. Recognizing that the Anti-Kickback Statute is broad and may technically prohibit many innocuous or beneficial arrangements, the Office of Inspector General of Health and Human Services, or OIG, issued a series of regulations, known as the safe harbors, beginning in July 1991. These safe harbors set forth provisions that, if all the applicable requirements are met, will assure healthcare providers and other parties that they will not be prosecuted under the Anti-Kickback Statute. The failure of a transaction or arrangement to fit precisely within one or more safe harbors does not necessarily mean that it is illegal or that prosecution will be pursued. However, conduct and business arrangements that do not fully satisfy each applicable safe harbor may result in increased scrutiny by government enforcement authorities such as the OIG. Arrangements that implicate the Anti-Kickback Law, and that do not fall within a safe harbor, are analyzed by the OIG on a case-by-case basis. Government officials have focused recent enforcement efforts on, among other things, the sales and marketing activities of healthcare companies, and recently have brought cases against individuals or entities with personnel who allegedly offered unlawful inducements to potential or existing customers in an attempt to procure their business. Settlements of these cases by healthcare companies have involved significant fines and/or penalties and in some instances criminal pleas. In addition to the Federal Anti-Kickback Statute, many states have their own kickback laws. Often, these laws closely follow the language of the federal law, although they do not always have the same exceptions or safe harbors. In some states, these anti-kickback laws apply with respect to all payors, including commercial health insurance companies.

False Claims Laws

Federal false claims laws prohibit any person from knowingly presenting, or causing to be presented, a false claim for payment to the federal government or knowingly making, or causing to be made, a false statement to get a false claim paid. Manufacturers can be held liable under false claims laws, even if they do not submit claims to the government, if they are found to have caused submission of false claims. The Federal Civil False Claims Act also includes whistleblower provisions that allow private citizens to bring suit against an entity or individual on behalf of the United States and to recover a portion of any monetary recovery. Many of the recent highly publicized settlements in the healthcare industry related to sales and marketing practices have been cases brought under the False Claims Act. The majority of states also have statutes or regulations similar to the federal false claims laws, which apply to items and services reimbursed under Medicaid and other state programs, or, in several states, apply regardless of the payor. Sanctions under these federal and state laws may include civil monetary penalties, exclusion of a manufacturer's products from reimbursement under government programs, criminal fines and imprisonment.

Privacy and Security

The Health Insurance Portability and Accountability Act of 1996, or HIPAA, and the rules promulgated there under require certain entities, referred to as covered entities, to comply with established standards, including standards regarding the privacy and security of protected health information, or PHI. HIPAA further requires that covered entities enter into agreements meeting certain regulatory requirements with their business associates, as such term is defined by HIPAA, which, among other things, obligate the business associates to safeguard the covered entity's PHI against improper use and disclosure. While not directly regulated by HIPAA, our customers or distributors might face significant contractual liability pursuant to such an agreement if the business associate breaches the agreement or causes the covered entity to fail to comply with HIPAA. It is possible that HIPAA compliance could become a substantial regulatory burden and expense to our operations, although we do not believe that this will occur as a general website publisher.

Penny Stock

The SEC has adopted rules that regulate broker-dealer practices in connection with transactions in penny stocks. Penny stocks are generally equity securities with a market price of less than \$5.00, other than securities registered on certain national securities exchanges or quoted on the NASDAQ system, provided that current price and volume information with respect to transactions in such securities is provided by the exchange or system. The penny stock rules require a broker-dealer, prior to a transaction in a penny stock, to deliver a standardized risk disclosure document prepared by the SEC, that: (a) contains a description of the nature and level of risk in the market for penny stocks in both public offerings and secondary trading; (b) contains a description of the broker's or dealer's duties to the customer and of the rights and remedies available to the customer with respect to a violation of such duties or other requirements of the securities laws; (c) contains a brief, clear, narrative description of a dealer market, including bid and ask prices for penny stocks and the significance of the spread between the bid and ask price; (d) contains a toll-free telephone number for inquiries on disciplinary actions; (e) defines significant terms in the disclosure document or in the conduct of trading in penny stocks; and (f) contains such other information and is in such form, including language, type size and format, as the SEC shall require by rule or regulation.

The broker-dealer also must provide, prior to effecting any transaction in a penny stock, the customer with (a) bid and offer quotations for the penny stock; (b) the compensation of the broker-dealer and its salesperson in the transaction; (c) the number of shares to which such bid and ask prices apply, or other comparable information relating to the depth and liquidity of the market for such stock; and (d) a monthly account statement showing the market value of each penny stock held in the customer's account.

In addition, the penny stock rules require that prior to a transaction in a penny stock not otherwise exempt from those rules, the broker-dealer must make a special written determination that the penny stock is a suitable investment for the purchaser and receive the purchaser's written acknowledgment of the receipt of a risk disclosure statement, a written agreement as to transactions involving penny stocks, and a signed and dated copy of a written suitability statement.

These disclosure requirements may have the effect of reducing the trading activity for our common stock. Therefore, stockholders may have difficulty selling our securities.

Holders of Our Common Stock

As of December 31, 2009, we had 12,826,117 shares of our common stock issued and outstanding, held by 332 shareholders of record, not including those held in street name.

Dividends

We currently intend to retain future earnings for the operation of our business. We have never declared or paid cash dividends on our common stock, and we do not anticipate paying any cash dividends in the foreseeable future.

In the event that a dividend is declared, common stockholders on the record date are entitled to share ratably in any dividends that may be declared from time to time on the common stock by our board of directors from funds legally available.

There are no restrictions in our articles of incorporation or bylaws that restrict us from declaring dividends. The Nevada Revised Statutes, however, do prohibit us from declaring dividends where, after giving effect to the distribution of the dividend:

1. We would not be able to pay our debts as they become due in the usual course of business; or
2. Our total assets would be less than the sum of our total liabilities, plus the amount that would be needed to satisfy the rights of shareholders who have preferential rights superior to those receiving the distribution.

During the year ended December 31, 2008, 35 preferred shares were issued for \$3,500,000. Issuance costs totaled \$515,000 resulting in net proceeds of \$2,985,000. The 35 shares are convertible to 3,500,000 shares of common stock and bear a 10% cumulative dividend. In addition, there was a warrant issued to purchase 6,000,000 shares of common stock at an exercise price of \$2 for a period of seven years.

The holders of the preferred stock are entitled to semi-annual dividends payable on the stated value of the Series A preferred stock at a rate of 10% per annum, which shall be cumulative, and accrue daily from the issuance date. The dividends may be paid in cash or shares of the Company's common stock at management's discretion. If after the conversion eligibility date, the market price for the common stock for any ten consecutive trading days in which the stock trades for over \$2 per share and trading exceeds 100,000 shares per day, the preferred shareholders can be required to convert their shares to common stock. Each share of Series A preferred stock shall also be convertible at the option of the holder into that number of shares of common stock of the Company at the stated value of such share at a \$1 conversion price.

The holder may cause this conversion at the time the shares are eligible for resale by the holder. The conversion price is subject to adjustment as hereinafter provided, at any time, or from time to time upon the terms and in the manner hereinafter set forth in the shareholder agreement. The shares are required to be redeemed on September 5, 2010. As of December 31, 2009, the cumulative dividend was \$547,774; however, it has not yet been declared.

Securities Authorized for Issuance under Equity Compensation Plans

On March 5, 2008, our Board of Directors adopted the 2008 Company Stock Option Plan. The purpose of this plan is to provide incentives to attract, retain and motivate eligible persons whose present and potential contributions are important to our success, by offering them an opportunity to participate in the our future performance through awards of options, the right to purchase common stock and stock bonuses. We reserved 1,490,000 shares of our Common Stock for awards to be made under the 2008 Plan. The 2008 Plan is administered by a committee of two or more members of the Board of Directors or, if no committee is appointed, then by the Board of Directors. The committee, or the Board of Directors if there is no committee, determines who is eligible to receive awards under the plan, grant awards and interpret the 2008 Plan.

We also have warrants outstanding to purchase 7,086,500 shares of our common stock as of December 31, 2009.

Overview

We are a development-stage company located in Michigan. Since our formation, our initial concentration had been on developing our direct to consumer business strategy and obtaining financing. We planned to expand awareness, traffic and database to our patient savings portal OPTIMIZERx.com, as well as the launch of our offer development systems OFFERx™ and ADHERxE. The primary components of our direct to consumer business are :

- ☺ The online patient savings portal OPTIMIZERx.com and our network affiliates
- ☺ OFFERx to develop, promote and fulfill new offers from pharmaceutical and healthcare manufactures
- ☺ ADHERxE to allow manufacturers to re-engage their customers through the activation of new savings each month

We plan to generate revenues through: (i) advertising sales from our Site and affiliate network; (ii) its database; (iii) direct marketing and sponsorships and (iv) our platforms to create, promote and manage new savings offers for additional clients.

We have acquired over two million members to date. Upon this, management has been preparing and addressing all key issues to successfully serve and monetize the membership database, including: content, procurement of advertising sponsorships, technology and distribution. We originally planned to extend our reach and visibility through increased online, print and broadcast marketing to increase traffic and our database of qualified health care consumers. However, with our current membership base, along with the short period of time since acquiring the majority of our members and the sales cycle of attaining sponsorship and industry advertising programs to this new asset, we have minimally engaged in marketing to our database.

Management continues to believe the OPTIMIZERx database will be a very significant, on-going revenue stream over time. Currently we have a number of advertising proposals pending to major pharmaceutical companies and agencies, including Lilly, AstraZeneca, Publicis and Novartis, and are working with media and channel partners to continue to seek new ways to monetize

During the past year, the company had also begun to develop its Direct to Physician solution 'SampleMD. Today, almost 2/3 of doctors' offices ban or limit drug representative and samples. Although samples are still valuable, many healthcare systems and doctors are looking for an easier, more effective way to increase affordable access and adherence to their prescribed branded medications. Based on this we have built SampleMD, a solution targeting providing a new way to administer and distribute samples and co-pays direct from the physician and benefiting the patient consumer.

SampleMD was announced to the marketplace in October 2009 with great interest from the physician groups, IDN's and GPO's as well as the pharmaceutical manufacturers. With ease of use for the physicians, sample can again be prescribed to validate treatment of patients, and with greater reporting capabilities, the manufacturers now gain greater transparency to information relative to sample distribution and utilization. SampleMD will be launched within its first physician groups in spring of 2010 with full roll out by summer / fall 2010.

Results of Operations for the Years Ended December 31, 2009 and 2008

Since inception until December 31, 2009, we have generated \$210,727 from advertising and use of our database. In the same period, we have incurred operating expenses in the amount of \$4,906,090 related to funding the development of the business plan, new products and platforms and raising capital.

Gross Revenues

Our total revenue reported for the year ended December 31, 2009 was \$26,723, a decrease from \$83,686 for the year ended December 31, 2008.

Operating Expenses

Operating expenses increased to \$2,673,782 for the year ended December 31, 2009 from \$1,591,738 for the year ended December 31, 2008. Our operating expenses for the year ended December 31, 2009 consisted mainly of advertising expenses of \$668,751, consulting fees of \$852,736, salaries and wages of \$524,500, website maintenance of \$143,014, legal and accounting fees of \$146,252, and travel expenses of \$60,671. Our operating expenses for the year ended December 31, 2008 consisted mainly of advertising expenses of \$380,497, stock based compensation expenses of \$333,004, consulting fees of \$322,625, salaries and wages of \$151,593, commission expenses of \$87,825, website maintenance of \$76,746, legal and accounting fees of \$58,934, and travel expenses of \$54,929.

Other Expenses

Other expenses decreased to \$1,908,630 for the year ended December 31, 2009 from \$2,740,801 for the year ended December 31, 2008. The decrease in other expenses for the year ended December 31, 2009 from the prior year is primarily attributable to a decrease in warrant based compensation. For the year ended December 31, 2009 we expensed \$1,939,257 in warrant based compensation, as opposed to \$2,745,280 in warrant based compensation for the year ended December 31, 2008.

Net Loss

Net loss for the year ended December 31, 2009 was \$4,555,689, compared to net loss of \$4,248,853 for the year ended December 31, 2008.

Liquidity and Capital Resources

As of December 31, 2009, we had total current assets of \$678,951 and total assets in the amount of \$890,142. Our total current liabilities as of December 31, 2009 were \$37,830. We had working capital of \$641,121 as of December 31, 2009.

Operating activities used \$1,769,562 in cash for the year ended December 31, 2009. Our net loss of \$4,555,689 was the primary component of our negative operating cash flow, offset mainly by \$1,939,257 in stock warrants issued for services and \$1,008,240 in stock options issued for compensation. Cash flows used by investing activities during the year ended December 31, 2009 was \$107,700 for web development costs. Cash flows provided by financing activities during the year ended December 31, 2009 amounted to \$31,000 and consisted of \$35,000 as proceeds from the conversion of stock warrants offset by \$4,000 in repayment of notes payable to related parties.

On Sept 8, 2008 we received gross proceeds of \$3,500,000 (net \$2,985,000) from VICIS Capital for preferred equity share sales which was used towards our working capital.

Our monthly use of funds is for general operations, product development, sales and marketing. Our operational overhead is generally minimized through our small staff and use of independent contractors.

Management feels that our current cash balance will allow us to meet the expenses required to continue the current level of operation to mid 2010, which does not include provision for financial support by revenue. Our expenses are expected to be roughly \$110,000 to 120,000 per month, so we will need an additional \$750,000 to \$1,000,000 to carry us to the end of 2010 without the assistance of revenues.

Based upon our current financial condition, we do not have sufficient cash to operate our business at the current level for the next twelve months. We intend to fund operations through increased sales and debt and/or equity financing arrangements, which may be insufficient to fund expenditures or other cash requirements. We plan to seek additional financing in a private equity offering to secure funding for operations. There can be no assurance that we will be successful in raising additional funding. If we are not able to secure additional funding, the implementation of our business plan will be impaired. There can be no assurance that such additional financing will be available to us on acceptable terms or at all.

Off Balance Sheet Arrangements

As of December 31, 2009, there were no off balance sheet arrangements.

Stock Based Compensation

Effective January 1, 2006, the Company adopted SFAS No. 123 (revised), "Share-Based Payment" (SFAS 123(R)) utilizing the modified prospective approach. Prior to the adoption of SFAS 123(R) we accounted for stock option grant in accordance with APB Opinion No. 25, "Accounting for Stock Issued to Employees," and accordingly, recognized compensation expense for stock option grants using the intrinsic value method.

Under the modified prospective approach, SFAS 123(R) applies to new awards and to awards that were outstanding on January 1, 2006 that are subsequently modified, repurchased or cancelled. Under the modified prospective approach, compensation cost recognized in the first quarter of fiscal 2006 includes compensation cost for all share-based payments granted prior to, but not yet vested as of January 1, 2006, based on the grant-date fair value estimated in accordance with the original provisions of SFAS 123, and compensation cost for all share-based payments granted subsequent to January 1, 2006 based on the grant-date fair value estimated in accordance with the provisions of SFAS 123(R). For all quarters after the first quarter of fiscal 2006, compensation costs recognized will include compensation costs for all share-based payments granted based on the grant date fair value estimated in accordance with the provisions of SFAS 123(R).

The fair value of each option granted in 2009 is estimated on the date of grant using the Black-Scholes option-pricing model with the following weighted average assumptions: dividend yield of 0%, expected volatility of 44% to 233%, risk-free interest rate of .04% to .15% and expected life of 60 months. The Company recognized expense of \$1,939,257 on the 1,050,000 options and warrants in 2009.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors
OptimizeRx Corporation
Rochester, Michigan

We have audited the accompanying consolidated balance sheets of OptimizeRx Corporation, as of December 31, 2009 and 2008, and the related consolidated statements of operations, stockholders' equity (deficit), and cash flows for the years then ended and the period from January 31, 2006 (inception) to December 31, 2009. These financial statements are the responsibility of the Companies management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Company has determined that it is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit includes examining on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of OptimizeRx Corporation, as of December 31, 2009 and 2008 and the results of their operations and cash flows for the years then ended and for the period from January 31, 2006 (inception) to December 31, 2009, in conformity with accounting principles generally accepted in the United States.

The accompanying consolidated financial statements have been prepared assuming that the OptimizeRx Corporation will continue as a going concern. As discussed in Note 14 to the financial statements, the Company has limited working capital, has received limited revenue from sales of products or services, and has incurred losses from operations. These factors raise substantial doubt about the Company's ability to continue as a going concern. Management's plans with regard to these matters are described in Note 14. The accompanying consolidated financial statements do not include any adjustments that might result from the outcome of this uncertainty.

OPTIMIZER_x CORPORATION
(A DEVELOPMENT STAGE COMPANY)
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
DECEMBER 31, 2009

Note 1: Nature of Operations

Optimizer Systems, LLC was formed in the State of Michigan on January 31, 2006. It then became a corporation in the state of Michigan on October 22, 2007 and changed its name to OptimizeRx Corporation on October 22, 2007. On April 14, 2008, RFID Ltd., a Colorado corporation, consummated a reverse merger by entering into a share exchange agreement with the stockholders of OptimizeRx Corporation, pursuant to which the stockholders of OptimizeRx Corporation exchanged all of the issued and outstanding capital stock of OptimizeRx Corporation for 1,256,958 shares of common stock of RFID Ltd., representing 100% of the outstanding capital stock of RFID Ltd. As of April 30, 2008, RFID's officers and directors resigned their positions and RFID changed its business to OptimizeRx's business. On April 15, 2008, RFID Ltd's corporate name was changed to OptimizeRx Corporation. On September 4, 2008, a migratory merger was completed, thereby changing the state of incorporation from Colorado to Nevada, resulting in the current corporate structure in which OptimizeRx Corporation, a Nevada corporation is the parent corporation, and OptimizeRx Corporation, a Michigan Corporation is a wholly-owned subsidiary (together "OptimizeRx" and the "Company").

The wholly-owned subsidiary, OptimizeRx Corporation, is a development-stage website publisher and marketing company that creates, promotes and fulfills custom marketing and advertising programs. The Company help patients better afford and manage their rising healthcare costs. In addition, the Company also provides unique advertising programs to the pharmaceutical and healthcare industries. The Company's websites provide the following services: (i) OptimizeRx provides patients an opportunity to centrally review and participate in prescription and healthcare savings/support programs; (ii) OFFERx provides a platform to allow manufacturers to create, promote and fulfill new patient offer programs in over 64,000 pharmacies; and (iii) ADHERxE provides a platform that allows manufacturers to engage and monitor patients each month in exchange for activation of their monthly co-pay coupons.

Note 2: Significant Accounting Policies

This summary of significant accounting policies of the Company is presented to assist in understanding the company's financial statements. The financial statements and notes are representations of the company's management, who is responsible for their integrity and objectivity. These accounting policies conform to generally accepted accounting principles and have been consistently applied to the preparation of the financial statements.

OPTIMIZER_x CORPORATION
(A DEVELOPMENT STAGE COMPANY)
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
DECEMBER 31, 2009

Note 2: Significant Accounting Policies (continued)

Principles of Consolidation

The financial statements reflect the consolidated results of OptimizeRx Corporation (a Nevada corporation) and its wholly owned subsidiary OptimizeRx Corporation (a Michigan corporation). All material inter-company transactions have been eliminated in the consolidation.

Fair Value of Financial Instruments

The fair value of cash, accounts receivable and accounts payable approximates the carrying amount of these financial instruments due to their short-term nature. The fair value of long-term debt, which approximates its carrying value, is based on current rates at which the Company could borrow funds with similar remaining maturities.

Property and Equipment

The capital assets are being depreciated over their estimated useful lives using the straight line method of depreciation for book purposes. As of October 18, 2007, the Company acquired the majority of its capital assets at the lower market cost from Optimizer Systems, LLC.

Research and Development

The Company's key members are part of a continual research and development team and monitor new technologies, trends, services and partnerships that can provide the Company with additional services, value to healthcare and pharmaceutical industries and to the patients we serve.

The Company is currently in a launch phase with ADHER_xE to allow pharmaceutical and healthcare manufacturers unique ways to engage and monitor patients each month in exchange for activation of their next savings offer.

The Company seeks to educate team members through understanding of all market dynamics that have the potential to affect business both short term and long term. The primary goal is to help patients better afford and access the medications their doctors prescribe, as well as other healthcare products and services they need. Based on this, the Company continually seeks better ways to meet this mission through technology, better user experiences and new ways to engage industries to provide new support program for patients needing their products. The Company is always seeking new services and solutions to offer. At this time, the three current platforms provide robust opportunities and growth during the next five years.

Revenue Recognition

Substantially all revenue is recognized when it is earned. All revenues are generated through the Company's website activities. The Company's processes are monitored by third parties who collect revenues from clients on a per activity basis and report and forward the revenue to the Company's account.

Management Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Estimates and assumptions have been made in determining the depreciable lives of such assets and the allowance for doubtful accounts receivable. Actual results could differ from those estimates.

Note 2: Significant Accounting Policies (continued)

Recently Issued Accounting Guidance

The Company does not expect the adoption of recently issued accounting pronouncements to have a significant impact on the Company's results of operation, financial position or cash flow.

Earnings Per Common and Common Equivalent Share

The computation of basic earnings per common share is computed using the weighted average number of common shares outstanding during the year. The computation of diluted earnings per common share is based on the weighted average number of shares outstanding during the year plus common stock equivalents which would arise from the exercise of warrants outstanding using the treasury stock method and the average market price per share during the year. Options warrants and convertible preferred stock which are common stock equivalents are not included in the diluted earnings per share calculation for December 31, 2009 and December 31, 2008, respectively, since their effect is anti-dilutive.

The accompanying financial statements have been prepared assuming that the Company will continue as a going concern. The Company has sustained substantial losses since inception.

In view of this matter, the ability of the Company to continue as a going concern is dependent upon growth of revenues and the ability of the Company to raise additional capital. Management believes that its successful ability to raise capital and increases in revenues will provide the opportunity for the Company to continue as a going concern.

Note 15: Subsequent Events

The Company has analyzed its operations subsequent to December 31, 2009 through the date these financial statements were filed with the Securities and Exchange Commission and has determined that it does not have any material subsequent events to disclose.

Item 9. Changes In and Disagreements with Accountants on Accounting and Financial Disclosure

No events occurred requiring disclosure under Item 307 and 308 of Regulation S-K during the fiscal year ending December 31, 2009.

Item 9A(T). Controls and Procedures

Evaluation of Disclosure Controls and Procedures

Under the supervision and with the participation of our management, including our chief executive officer and chief financial officer, we conducted an evaluation of the effectiveness, as of December 31, 2009, of our disclosure controls and procedures, as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended, or the Exchange Act. The purpose of this evaluation was to determine whether as of the evaluation date our disclosure controls and procedures were effective to provide reasonable assurance that the information we are required to disclose in our filings with the Securities and Exchange Commission, or SEC, under the Exchange Act (i) is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms and (ii) accumulated and communicated to our management, including our chief executive officer and chief financial officer, as appropriate to allow timely decisions regarding required disclosure. Based on their evaluation, our management has concluded, as discussed below, that a material weakness existed in our internal control over financial reporting as of December 31, 2009 and as a result our disclosures controls and procedures were not effective.

Management's Annual Report on Internal Control Over Financial Reporting

Our management is responsible for establishing and maintaining adequate internal control over financial reporting as defined in Rules 13a-15(e) and 15d-15(f) of the Exchange Act. We have designed our internal controls to provide reasonable, but not absolute, assurance that our financial statements are prepared in accordance with U.S. GAAP. We assess the effectiveness of our internal controls based on the criteria set forth in the Internal Control — Integrated Framework developed by the Committee of Sponsoring Organizations of the Treadway Commission. In performing the assessment, our management identified a material weakness in internal control over financial reporting as of December 31, 2009. Specifically, we had the following significant deficiencies at December 31, 2009:

- The company currently only has one employee to oversee bank reconciliations, posting payables, and so forth, so there are no checks and balances on internal controls. Mr. David Lester recently assumed responsibilities for the company as the sole officer. Prior officers of the company have not implemented checks and balances on internal controls.

Due to this material weakness, management has concluded that our internal control over financial reporting was not effective as of December 31, 2009.

Remediation

In the first quarter 2009, the company engaged the accounting firm of Tama, Budja & Raab, P.C to assist on the preparation of quarterly and annual financials. The firm also plans to assist the company with Quickbooks assistance. The company plans to remedy internal control weaknesses during 2010.

Auditor Attestation

This annual report does not include an attestation report of the company's registered public accounting firm regarding internal control over financial reporting. Management's report was not subject to attestation by the company's registered public accounting firm pursuant to temporary rules of the Securities and Exchange Commission that permit the company to provide only management's report in this annual report.

Changes in Internal Control over Financial Reporting

During the most recently completed fiscal quarter, there has been no change in our internal control over financial reporting that has materially affected or is reasonably likely to materially affect, our internal control over financial reporting.

Inherent Limitation on the Effectiveness of Internal Controls

The effectiveness of any system of internal control over financial reporting, including ours, is subject to inherent limitations, including the exercise of judgment in designing, implementing, operating, and evaluating the controls and procedures, and the inability to eliminate misconduct completely. Accordingly, any system of internal control over financial reporting, including ours, no matter how well designed and operated, can only provide reasonable, not absolute assurances. In addition, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate. We intend to continue to monitor and upgrade our internal controls as necessary or appropriate for our business, but cannot assure you that such improvements will be sufficient to provide us with effective internal control over financial reporting.

Item 9B. Other Information

None.

David A. Harrell

Mr. Harrell founded the Company in January of 2006 and has served as our President and Chief Executive Officer. He became a director when the Company changed from a limited liability to a corporation in 2007. Mr. Harrell was the Vice President of Development for Meridian Incorporated from 2003-2005 and, prior to that, had been Vice President of Sales and Marketing since 1999 at Advance Graphic Systems. Mr. Harrell has spent two decades leading sales, marketing and business development units within the pharmaceutical and national retail industries. Directors

Our bylaws authorize two (2) directors unless changed by the Board of Directors. The board has since changed the number of directors authorized, and we currently have three (3) Directors.

Term of Office

Our Directors are appointed for a one-year term to hold office until the next annual general meeting of our shareholders or until removed from office in accordance with our bylaws. Our officers are appointed by our board of directors and hold office until removed by the board.

Significant Employees

We have no significant employees other than our officers and directors.

Family Relationships

There are no family relationships between or among the directors, executive officers or persons nominated or chosen by us to become directors or executive officers.

Involvement in Certain Legal Proceedings

To the best of our knowledge, during the past five years, none of the following occurred with respect to a present or former director, executive officer, or employee: (1) any bankruptcy petition filed by or against any business of which such person was a general partner or executive officer either at the time of the bankruptcy or within two years prior to that time; (2) any conviction in a criminal proceeding or being subject to a pending criminal proceeding (excluding traffic violations and other minor offenses); (3) being subject to any order, judgment or decree, not subsequently reversed, suspended or vacated, of any court of competent jurisdiction, permanently or temporarily enjoining, barring, suspending or otherwise limiting his or her involvement in any type of business, securities or banking activities; and (4) being found by a court of competent jurisdiction (in a civil action), the SEC or the Commodities Futures Trading Commission to have violated a federal or state securities or commodities law, and the judgment has not been reversed, suspended or vacated.

Audit Committee

We do not have a separately-designated standing audit committee. The entire board of directors performs the functions of an audit committee, but no written charter governs the actions of the board of directors when performing the functions of that would generally be performed by an audit committee. The board of directors approves the selection of our independent accountants and meets and interacts with the independent accountants to discuss issues related to financial reporting. In addition, the board of directors reviews the scope and results of the audit with the independent accountants, reviews with management and the independent accountants our annual operating results, considers the adequacy of our internal accounting procedures and considers other auditing and accounting matters including fees to be paid to the independent auditor and the performance of the independent auditor.

We do not have an audit committee financial expert because of the size of our company and our board of directors at this time. We believe that we do not require an audit committee financial expert at this time because we retain outside consultants who possess these attributes as needed.

For the fiscal year ending December 31, 2009, the board of directors:

1. Reviewed and discussed the audited financial statements with management, and
2. Reviewed and discussed the written disclosures and the letter from our independent auditors on the matters relating to the auditor's independence.
