Stock Based Compensation

Effective January 1, 2006, the Company adopted SFAS No. 123 (revised), "Share-Based Payment" (SFAS 123(R)) utilizing the modified prospective approach. Prior to the adoption of SFAS 123(R) we accounted for stock option grant in accordance with APB Opinion No. 25, "Accounting for Stock Issued to Employees," and accordingly, recognized compensation expense for stock option grants using the intrinsic value method.

Under the modified prospective approach, SFAS 123(R) applies to new awards and to awards that were outstanding on January 1, 2006 that are subsequently modified, repurchased or cancelled. Under the modified prospective approach, compensation cost recognized in the first quarter of fiscal 2006 includes compensation cost for all share-based payments granted prior to, but not yet vested as of January 1, 2006, based on the grant-date fair value estimated in accordance with the original provisions of SFAS 123, and compensation cost for all share-based payments granted subsequent to January 1, 2006 based on the grant-date fair value estimated in accordance with the provisions of SFAS 123(R). For all quarters after the first quarter of fiscal 2006, compensation costs recognized will include compensation costs for all share-based payments granted based on the grant date fair value estimated in accordance with the provisions of SFAS 123(R).

The fair value of each option granted in 2008 is estimated on the date of grant using the Black-Scholes option-pricing model with the following weighted average assumptions: dividend yield of 0%, expected volatility of 150%, risk-free interest rate of 2.59% and expected life of 60 months
