OptimizeRx Reports Third Quarter 2017 Results; Net Revenue Up 74% to Record \$3.1 Million

Rochester, MI, (November 2, 2017) — OptimizeRx Corp. (OTCQB: OPRX), the nation's leading provider of digital health messaging via electronic health records (EHRs), reported results for the third quarter ended September 30, 2017. All quarterly comparisons are to the same year-ago quarter.

Q3 2017 Highlights

- Net revenue increased 74% to a record \$3.1 million, driven by growth in financial and brand messaging by new and returning clients.
- Financial messages, such as eCoupons, and brand messaging were distributed for more than 100 pharmaceutical brands during the quarter.
- Operating expense as a percentage of revenue improved to 65.4% versus 73.5% in the year-ago quarter.
- · Appointed prominent health IT veteran, Miriam Paramore, as president to drive scale as OptimizeRx offers medication savings at point-of-care.
- Launched automated financial messaging within iSalus Healthcare's EHR, alerting health care providers (HCPs) to potential prescription savings and support information for their patients.
- · Added several business development and operations team members to accelerate revenue growth, brand expansion and new product sales.

Q3 2017 Financial Summary

Net revenue in the third quarter of 2017 increased 74% to \$3.1 million from \$1.8 million in the same year-ago quarter. The increase was primarily due to revenue from OptimizeRx's two core products of financial and brand messaging coupled with broader distribution with the company's new channel partners. Additionally, the launch of new pharmaceutical brands, which now totals more than 100 between financial and brand messaging, also contributed to the increase.

Operating expenses in the third quarter of 2017 were \$2.0 million, up from \$1.3 million in the third quarter of 2016. The increase was primarily due to additional expenses related to growth initiatives, including in the company's executive and sales team.

Net loss for the third quarter of 2017 was \$623,000 or \$(0.02) per share, as compared to a net loss of \$243,000 or \$(0.01) per share in the third quarter of 2016.

Cash and cash equivalents totaled \$5.0 million at September 30, 2017, as compared to \$5.8 million at June 30, 2017. The company continued to operate debt-free.

Management Commentary

"In Q3, our record topline was driven by the growth of our financial and brand messaging products, as well as the expansion of our EHR network through which those products are distributed to HCPs," said OptimizeRx CEO, William Febbo. "We added iSalus Healthcare, an industry-leading EHR, to our EHR network, which is still the largest of its kind with more than 370 EHRs nationwide.

"During the quarter, we also continued to see the expansion of clients, brands, and agencies advising the industry about our cloud-based EHR channel. To support further growth and drive scale, we appointed Miriam Paramore, an accomplished health IT industry veteran, as our new president. We also added several business development and operations team members.

"These investments in our executive and sales teams have already begun to produce returns in terms of accelerated revenue growth, broader client base, and greater scale potential. In fact, our operating expenses as a percentage of revenue decreased markedly during the quarter. We see this decrease as demonstrative of the substantial leverage in our operating model, in that it supports greater market reach and revenue growth without the need to incrementally increase operating cost in a matching fashion. So, as we grow, we expect operating expense as a percentage of revenue to continue to decrease.

"Our success in acquiring, integrating and expanding into new promotional EHR/eRx platforms has also continued to strengthen. As a result, we have more master service agreements now than ever before. We recently added Aprima Medical Software, and we are actively engaged in discussions with several additional EHRs to integrate our technology into their platforms. We are also working extensively with our existing platforms to expand the reach of our financial messaging to additional health care providers, as well as increasing the utilization by existing users.

"We believe EHR adoption is here to stay, e-prescription has become well adopted, and point-of-care access is proving highly valuable to pharma. All of this is conducive to the growth of our unique marketing channel between pharma companies and HCPs. We also believe we have only just begun to scratch the surface of our market potential. So, with the growth of pharma brands, channel partners and HCPs on our EHR network, we expect the distribution of our financial messaging will continue to increase, and our brand messaging will continue to support top-line growth.

"For the remainder of the year and beyond, we will remain focused on engaging more brands, and developing more solutions and more reach. Given the greater visibility into our expanding client base, we believe we are well on track for another record quarter ahead."
